

Manufacturing Statement

Re: Leadership in Energy and Environmental Design (LEED) Qualification

Product: Post Tension Anchor Castings

Manufacturer: EBAA Iron Incorporated, Eastland, Texas

To Whom it May Concern,

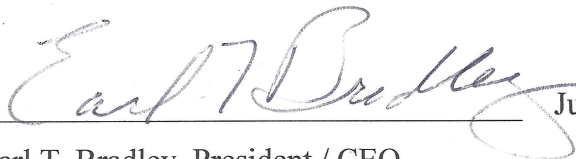

All Post Tension Anchor Castings manufactured by EBAA Iron, Inc. are:

- 1. Cast of Ductile Iron created from a minimum of 90% post-industrial recycled steel scrap.**
- 2. The steel scrap is procured within the United States.**
- 3. The steel scrap is procured within a 200 mile radius of the EBAA foundries located in Eastland and Albany, Texas.**

Additional Information:

EBAA Iron, Inc. is a fully domestic foundry and manufacturer of products for the post tension concrete, water, and wastewater industries, with foundry and finishing facilities in Eastland Texas, Albany Texas, and Cordele Georgia. All of our cast products including post tension concrete anchor castings, are proudly cast, machined, and packaged in the United States.

Sincerely,

 July 23, 2015

Earl T. Bradley, President / CEO
